

THE COMPLETE VIEWER FOR MS® PROJECT

---

## Customers in the Technology Industry

## Technology

The cornerstone of successful technology companies is prudent investments in future products and services. These dollars need to be invested wisely in research, designing and prototyping products. Winners need to be identified early in the project life cycle and losers need to be culled quickly. Monitoring all on-going projects requires continual supervision and constant communication with project leaders and team members. **Seavus Project Viewer** cost effectively helps team leaders and managers see what is actually happening to all projects within their company.

Featured Customers	
Atos Origin	Leica Corporation
BEA Systems	Nortel
Cisco Systems	Paul Wurth S.A.
Computacenter	Sony Corporation
Degussa AG	Texas Instruments
Delphi	Virgin Mobile
Gemalto SA	Xerox
General Dynamics	
Lanxess Deutschland GmbH	

More Customers	
2dvelop Vastgoed BV	Man Ferrostaal AG
